TigerTransit Network

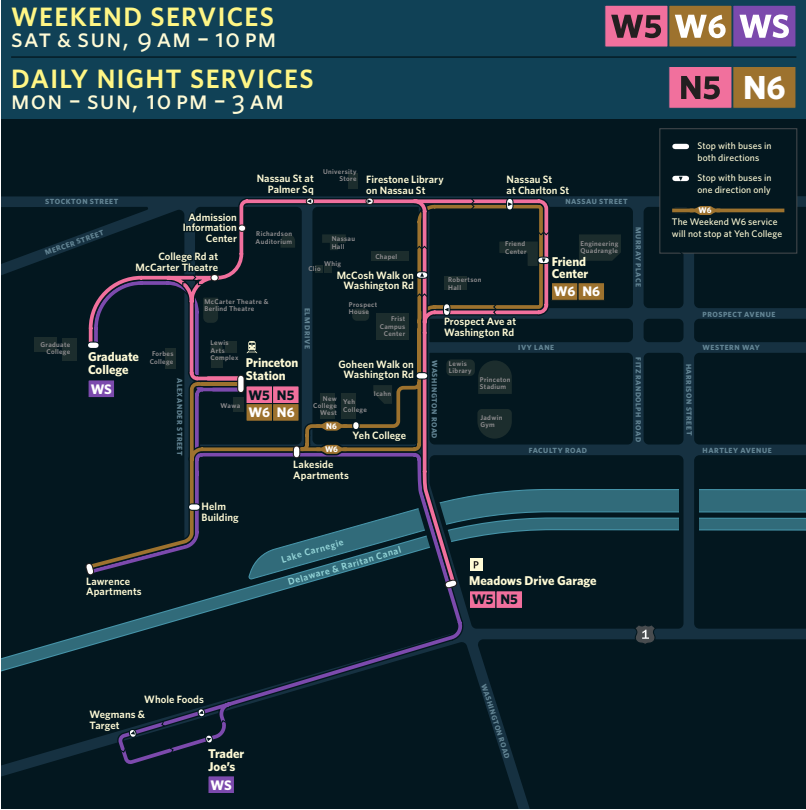

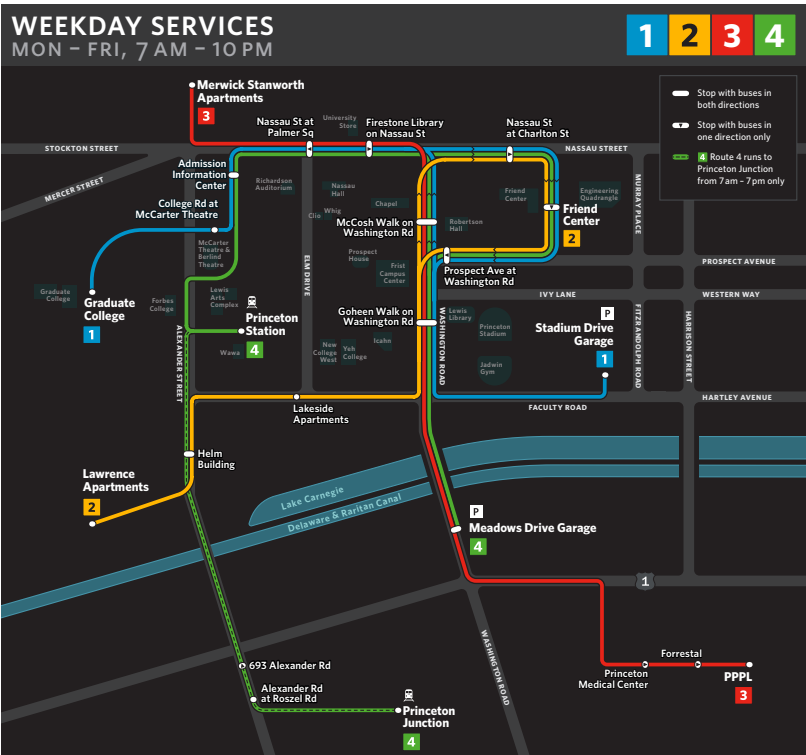

Free Shuttle Service for All

Princeton University's free TigerTransit shuttle bus system operates on a fixed route schedule, providing safe, convenient, and reliable transportation throughout the Princeton campus and surrounding community.

There are TigerTransit stops located near most major academic and administrative buildings, commuter parking lots, and housing facilities.

Princeton Forrestal Center is Princeton University's Corporate Office and Research Complex. The Princeton Plasma Physics Laboratory (PPPL) is a world-class fusion energy research laboratory managed by the university for the U.S. Department of Energy.

Both are minutes from the main academic campus using TigerTransit's Route 3.
